Saving Lives With Safe Water

Partner With Us for a Better World

Our Mission

Wells Bring Hope addresses the most basic of human needs—safe water—and does so in Niger, West Africa, one of the three poorest countries in the world where 1 out of 7 children dies before their 5th birthday.

The Impact

After a well is drilled, child mortality drops by 70+%. Women and girls no longer walk 4-6 miles to get water every day, which means girls can go to school and women can work and earn money.

How We Work

100% of every donation goes directly to a solar-powered water project. All of our wells are fully sustainable, and we are committed to ensuring generational change through sanitation and hygiene education.

How You Can Help

Direct Corporate Gift

Corporate giving can take various forms such as an on-going annual gift or percentage give back. Some of our partners opt to contribute to operating expenses or event underwriting.

Matching Program

Communicate your company's sense of social responsibility by initiating a program that matches employees' charitable donations. It's a way to celebrate the generosity of your team members while multiplying their impact.

Cause Marketing Partnerships

Enhance your brand image and build customer loyalty with high impact cause marketing programs that speak to your company's core values, all while delivering safe water to people who desperately need it.

Let's talk about how Wells Bring Hope can support your corporate responsibility mission.
